Making Words Second Grade: 100 Hands-On Lessons For Phonemic Awareness, Phonics And Spelling

Synopsis

An active and innovative approach to making words that teachers and their students have grown to love is finally here! Â Based on its highly successful parent text, *Phonics They Use*, this new grade-level series *Making Words* offers teachers a fresh multi-level activity and lesson series written for the kindergarten through fifth grade classroom. Pat Cunningham and Dottie Hall present classroom teachers with effective tools for strengthening phonics and spelling skills that encourage students to move beyond learning and into a world of word discovery. Each research-based volume includes a wealth of friendly, hands-on, manipulative activities that guide teachers in teaching the development of words--from phonemic awareness to spelling. Â In *Making Words Second Grade*, Pat and Dottie introduce second grade teachersÂ to 100 lessons that teach all the phonics, spelling, and phonemic awareness skills included in most second grade curricula.Â Each *Making Words* activity leads children through a systematic and sequential phonics curriculum. All lessons include practice with the phonemic awareness skills of segmenting and blending as children stretch out words they are making and blend the letters to make new words. Because teaching children letter-sound relationships is easier than teaching children to actually use these letter-sound relationships, all lessons include a transfer step in which children apply the sounds they are learning to spelling new words.Â Â *Making Words Second Grade* is the best resource you can have on hand for motivating your students to learn words!Â Â Features 100 fun andÂ interactive lessons for building phonemic awareness, phonics, and spelling skills. Presents a concise method for involving students in the process of identifying phonological units and patterns within words. Promotes student awareness of similarities in words that helpsÂ develop writing skills. Includes reproducible letter tiles, record sheets for each lesson, and take-home sheetsÂ to copy, cut, and/or laminate. Highlights a list of useful children's books toÂ extend the *Making Words* lesson.

Customer Reviews

I have bought grade 1,2, and 3 to help facilitate the differentiating of instruction. The children love when we make words. Everyone is able to work at an appropriate level.

This is an great supplemental resource for teachers of second grade. I have used parts of it before, but now I have Pat Cunningham's work in one easy place for quick reference.

I love this book. I can pick lessons that supplement the phonic skills of the week and roll with it. It gives my students the practice they need to bridge the gap between making words and reading words. I would highly recommend it.

There are some great ideas for activities in this book. Some I've used before and others I've never even thought about. Totally worth it!

My students love the making words books. Fun, engaging activities and they're learning? You can't beat that! I highly recommend.

This provides a fun option for guided reading groups and the kids love it. I would recommend this to anyone plus they have one for various grade levels.

This is a good tool to use for all my kids 5th, 4th, and 3rd grade
