South Carolina Atlas & Gazetteer

Synopsis

Wouldn't it be nice to always have exactly the right kind of map, whatever your needs may be? You will, with the uniquely versatile DeLorme Atlas & Gazetteer Series. These topographic atlases cover individual states with the most comprehensive detail available, including back roads, backwater lakes and streams, boat ramps, forests, wetlands, trailheads, campgrounds, public lands, prime hunting and fishing spots, and countless landmarks and points of interest. You'll also find a wealth of information on everything from family outings to wilderness adventures. The Atlas & Gazetteer is ideal for outdoor recreation, business travel, home or office reference, and countless other uses.

Customer Reviews

. . . I travel the state of SC a lot - often to out-of-the-way places - and can highly recommend this DeLorme atlas. To do my part in passing along back-fence knowledge, please let me address the [sometimes frivolous] knocks found in the 1, 2 & 3 star reviews. NOT A TRUE

GAZETTEER...--THAT particular charge is true; and caused me to mark my review down from 5 to 4 stars. TOO LARGE...--Well, Duh! Buying without checking for appropriateness and suitability is a clear indication of bad news for the gene pool. NOT AS GOOD AS OTHER STATES IN THE SERIES...--Possibly true; nonetheless, out of all the similar publications [for South Carolina] that I have seen, this one is, IMO, the best game in town. It is a great complement to the also-excellent South Carolina Wildlife Facilities Atlas that is available from the SC DNR. PLUSES: **Large Format - [this is essential to this kind of product & makes reading it MUCH easier] **GPS Grids - This means

that the entire state is broken into equidistant grids which, in addition to making the product easier to interface with GPS devices, makes for an excellent and rapid "table of contents" for moving around inside the atlas quickly. For instance, let's say that one knew where Georgetown, SC was and wanted to immediately go to the correct LARGE TOPO map for that city... One would simply go to the 63-grid map of the entire state that is just inside the front cover, locate Georgetown in Grid 49, and turn to where that entire grid can be found in numerical sequence. Bang! That was quick! [and THAT makes this kind of map extremely pleasurable and useful to use!
