Clinical Decision Making For Adult-Gerontology Primary Care Nurse Practitioners

Synopsis

Clinical Decision Making for Adult-Gerontology Primary Care Nurse Practitioners provides a unique approach to clinical decision making for a wide variety of commonly encountered primary care issues in adult and geriatric practice. This text combines guidelines for the ANP/GNP role and case studies with real life practice examples, as well as a series of practice questions to help reinforce learning. The text is designed for both the Nurse Practitioner student as well as the newly practicing NP to help increase confidence with application of assessment skills, diagnostic choices and management approaches. The theory behind this text is to enable students to learn a systematic approach to clinical problems as well as apply evidence-based guidelines to direct their management decisions. Clinical Decision Making for Adult -Gerontology Primary Care Nurse Practitioners is also appropriate for Nurse Practitioners preparing to take the ANP/GNP certification exam as it features summaries of evidence-based guidelines. Faculty may also use the text to incorporate a case study approach into their courses either for classroom discussion or as assignments to facilitate clinical decision making. The inclusion of "real life" cases simulate what NPs will actually encounter in their clinical practice environments. Key Features: Chapter Objectives Case Studies Review Questions Summaries of newest evidence-based guidelines Clinician Resources such as tool kits for evaluation and
